- During a fall meeting we will be putting together a parent survey, these surveys will be ready for fall parent teacher conferences.
  - This way schools can have the surveys on chromebooks in the hallway for parents to fill out prior to their conference or following their conference.
- We will be adding pandemic questions to the survey.
- There needs to be a question regarding if they are new to the district or not. This way we can keep track of the influx that is coming to our district.
